## **Capability Package**

# **SVS, Inc.**

SVS, Inc. is a woman owned, small family business located in Panama City, Florida. SVS was started in 1988 with the invention of the first scissor lift for video projectors by Charles E. Huffman who has received 3 separate patents on the lifts. SVS, Inc. was incorporated in 1989 and began to manufacture and sell our patented high quality projector lifts to video dealers around the world. After 18 years and a 100% safety record with our lifts, we are excited to expand by utilizing our expertise, existing equipment and new precision milling center to assist others in manufacturing their parts to the highest standard possible.

Welcome and Thank you.
